Additional Information

- Supplies will range in price from \$30 to \$80 depending on where you buy them so shop smartly. No single supplier carries everything so you may have to visit several suppliers.
- **Materials may also be purchased in a kit from the instructor for \$ 25 (I buy in bulk!)**
- **WARNING!** Knitting is very addicting and can result in hiding yarn from your loved ones, spending money earmarked for household necessities, and hoarding. We recommend support groups such as the Knitting and Crochet Studio to keep your addiction under control.
